

MDelta Curriculum: Stage Two

Stage 2 (Clinical Immersion) will begin in March of year two, and consist of four 12-week blocks as outlined above. Two blocks consist of two 6-week rotations (Ob/Gyn and Surgery (OGS) and Psychiatry and Inpatient Medicine (PIM) ; while two blocks consist of three 4-week experiences as in the table below (NAME and PFM). There will be a one week 'kickoff' (orientation) and 2 homeweeks. Radiology will be delivered as a longitudinal clerkship. Stage 2 ends with an 8 week Advanced Clinical period where students have an opportunity to complete 4th year clerkships, board study, electives or vacation.
