

UConn | SCHOOL OF MEDICINE

What to Bring To Your First Day of Medical School!

Congrats on being accepted!

Regardless of where you ultimately end up, this is a huge accomplishment and we want to prepare you for the next steps!

First year medical students begin with orientation at UConn Health, which lasts approximately 2 ½ weeks.

A few tips from current M1s:

- During orientation, you will be given a laptop to keep (included in tuition/fees), parking pass for the year, 2-year Boards and Beyond Subscription and spacious locker
- Have plenty of professional clothing
- Buy a pair of cheap scrubs for human anatomy lab
- Your portrait will be taken on the first day
- Get involved in orientation social events! (You make a lot of your close friends during the first weeks!)
